Liberecký
kraj

WHY IS THE PROJECT IMPORTANT

- High number of killed and seriously injured motorcyclists.
- Increasing number of motorcycles and motorcyclists
- The lack of information about the issue and the low level of tolerance and consideration from other road users
- Unfulfilled targets of the national strategy in reducing the number of killed and seriously injured road users
- Not always good schooling and thorough exams in driving schools
- Lack of post-graduate training for motorcyclists

THE HISTORY OF THE PROJECT

Project activities

One-day courses for 36 to 60 motorcyclists on polygons in the Czech Republic

Project activities

Special seminar and course
for driving school teachers

Project activities

- Inform about the issue of motorcycle accident rates
- Map risk points for motorcyclists in the Czech Republic

Project activities

New teaching tools

Project activities

Support for post-graduate training of motorcyclists

Project activities

Multiplication of activities
