

Dear EFA Members,

We are very pleased to join the EFA family as an associate Member after the grant of our application.

At the Road Safety Institute (RSI) "Panos Mylonas", we also believe in the primarily important role of drivers' education, and we have invested for several years in this sector.

We strongly believe that through this cooperation we will manage to promote and exchange good practices based on our common goal and objectives for the improvement of road safety in Greece and in Europe, undertaking also initiatives that arise from current technological developments, all within our vision for a world without road traffic crashes, a better world we deserve and we desperately need.

Vassiliki Danelli-Mylona,
President RSI "panos Mylonas"

Vassiliki Danelli-Mylona
President of BoD
Road Safety Institute
